

TROUT RUN CABIN DIRECTIONS COMING FROM THE SOUTH

From the Atlanta Airport on I-75, travel time to the cabin will be around 1 hour 30 minutes . Once you are on Hwy 515 and have gone thru Ellijay, start looking for the Appalachian Supply store on the left. Then start looking for the Hwy 515 Auto Auction on the left.. You will turn left on the street next to the Hwy 515 Auto Auction. The street name is White Path . (From this point, it is a little less than 10 miles to the cabin). White Path will dead end in to Boardtown. Turn right on Boardtown. Take Boardtown to Bushyhead Road . Turn left on Bushyhead Road. Bushyhead is paved for a while and then turns to a gravel road. After a few miles, the road will again turn to pavement. When it turns to pavement, you will go around the corner and see a lot of mailboxes on the left. Make a left just after the mailboxes. This is Cashes Valley Road.

Once you turn left after the mailboxes, again the road will be paved for a small way down and then it will turn to gravel. You will come to a very small stream flowing across the road. Once you cross over the stream, make a sharp left turn on to Oliver's Trail. Oliver's Trail will bear to the right and go over a ridge. Once you come down the other side, turn left before the bridge. This is Oliver's Pond Road.

The cabin is the first one of the right. There is a small blue sign with white number 30 at the end of the driveway. Continue around to the driveway with the covered carport. You can park there. The door from the carport will enter into the utility room.

**The lock box with the cabin key will be straight ahead of you affixed to the stairs post. The lock box code is "5419".
